

Year 6 News

4th June 2026

What we've been learning recently

English – In English, we have started a new unit all about the circulatory system. Throughout this unit, children will recap key grammar techniques, including the use of formal language, as well as correct use of semi-colons and colons. The outcome will be an explanation text that links closely to and supports our current science learning.

Maths – In maths, we are continuing to explore a range of real-life situations, from theme parks to event planning, where children learn how to budget effectively. These skills are fundamental in preparing them for future problem-solving and helping them apply their mathematical understanding in practical, meaningful ways.

Wider Curriculum – Within the wider curriculum, we have been exploring the daily life, beliefs, and key events of Ancient Greek civilisation, helping children to develop a deeper understanding of this influential period in history and its impact on the modern world. In science, we continue to build on our learning about the circulatory system, where children are developing their knowledge of how the heart, blood, and vessels work together to keep the body healthy and functioning.

Over the next fortnight we will be...

Over the next fortnight, we have many exciting opportunities ahead. These include our London residential, as well as plenty of production rehearsals as we prepare to wow you with our final primary school performance.
