Year 1 News
6th November 2026

What we've been learning recently

English – We are learning about the punctuation and grammar we use in our sentences. We have explored nouns and the difference between common and proper nouns. This week, we have been learning about verbs and the different forms they take depending on who is doing the action and whether it was in the past, present or future.

Maths – Having practiced addition with numbers to 10, we are now learning about subtraction. We have been using part whole models to split numbers to 10 in different ways, using our knowledge of number bonds up to 10 to help. We have been finding a part of a number and using tens frame to support writing subtraction number sentences.

Wider Curriculum – In computing, we learnt about algorithms, programming each other to complete simple tasks like taking off a shoe or brushing teeth, ensuring the instructions were clear and in the right order. This week, in Art, we have been exploring with watercolours. We experimented by making different brush strokes and by using a wet on wet technique where you paint water on first and then gently add some colour. Children created some fantastic pieces!

Over the next fortnight we will be…

- In English, we will be identifying the subject (noun) and verb in sentences before writing our own.
- In Maths, we are continuing our learning of subtraction and will be using our reasoning skills to answer problems.
- In Music, we will be learning our nativity songs.
- In Science, we will be exploring the differences in the seasons and changes that take place in each.

Important Notices

Year 1 Trip – We are visiting the library and museum in Wadebridge on Tuesday 17th November. Please sign your child up to the trip via the link you should have received by email.

Library – We visit the school library each Monday so please encourage your child to bring their library book in each week to change it.
