

Year 2 News

2nd October 2026

What we've been learning recently

English – We have continued to learn about Place Value Punctuation and Grammar. We have been building single clause sentences through identifying verbs/verb phrases, the subject, the leftover and pronouns. We have seen their confidence grow through punctuation and grammar activities and look forward to seeing them apply it in their writing.

Maths – We have been learning about place value to 100. Building on our knowledge from Year 1, we have used 10s and 1s to make, and partition, numbers through part whole models and place value charts. We have also been practicing how to read and write numbers to 100.

Wider Curriculum – In Science, we have started exploring the question “what do we need to survive?”. We learnt about the four basic needs animals need for survival and then moved onto essential and non-essential needs of humans. The Farm and Food Roadshow linked to our learning about nutrition and the need for a balanced diet.

Over the next fortnight we will be...

- Continuing to develop good letter formation through regular handwriting practice.
- Explore movement and expression in Dance.
- Recognise their roles and responsibilities when thinking about rewards and consequences.
- Design, prepare and make a balanced wrap in DT.
