

Year 6 News

16th October 2026

What we've been learning recently

English – In English, we are well into our non-chronological reports. This week, the children have been getting creative by inventing their own new genus and the species that belong within it. It has been lovely to see their imaginations take hold as they developed their own unique ideas and brought them to life!

Maths – This week, we have used our maths sessions to complete a series of mock SATs tests. These have been beneficial, helping us identify areas where children feel less confident and allowing us to provide targeted support to address their individual needs.

Wider Curriculum – In the wider curriculum, we have continued to develop our coding skills and spent a session exploring the concept of hacking and how it works. The children were brilliant during this session, showing great enthusiasm and knowledge - they even managed to teach us teachers a thing or two! In Art, we have continued to explore cityscapes, focusing on the importance of perspective and how it can be used to create depth and bring our artwork to life.

Over the next fortnight we will be...

We will be starting our new Geography unit all about population, exploring how and where people live around the world. In Art, we will continue to develop our drawing skills and build on the techniques we have been practising. We will also continue on our fitness journey in PE, while developing our understanding of basketball and improving our skills on the court.

Important Notices

PE Kit – A reminder that our PE day is on Monday. Please ensure your child wears their full PE kit on these days.

Parent Teacher Consultations – If you haven't already done so, please remember to book your appointment for either next Tuesday or Wednesday. Thank you!
