

by Tom Gillett

Dear Dr K Fisher

I'm a baby Meerkat and I live in Africa.

I'm very happy living with my family but I get really scared because my Mum and Dad make me sleep underground and it's very dark. I'm so frightened of the dark I have really bad nightmares.

Why can't my Mum and Dad let me sleep above ground?

Please help!

Scared and Frightened

baby Meerkats

Dear Scared and Frightened

You must listen to your parents!

They know that sleeping underground in your burrow keeps you safe and sound from predators.

I suggest you read a nice story before you go to bed to make sure you a lovely dream.

Yours

Dr K Fisher
